RAIL-&-STILE

BESPOKE FURNITURE COMPANY

Considered one of the preeminent lacquer studios in the country, Rail & Stile can help you re-imagine the furniture in your home. We provide a range of services, including custom furniture builds, lacquering, refinishing, repair and upholstery.

We offer a range of tried and true lacquer colors included in your lacquer service. These colors have been chosen because they have consistently proven to be sophisticated options. These color examples are the best interpretation we can do digitally and are not a guarantee of exact color. If you have concerns, grab paint chips from your nearest Ben Moore, Farrow & Ball or Sherwin Williams store/distributor.

We can provide lacquer and customization quotes via text, phone or email. We require photos and general dimensions. Our quoted price includes any of our 19 shop colors with two choices of sheen: Gloss or Satin. We can match any other Sherwin Williams, Benjamin Moore or Farrow & Ball color for \$85. We can do a direct color match using a fabric sample, etc. for an additional \$95.
